

The Center collaborates with the Hawai'i Hemophilia Foundation, the local chapter of the National Hemophilia Foundation. We participate in education and outreach, including neighbor island clinics.

CLINIC SCHEDULE:

- The **Hemophilia Clinic** is held on the first and third Thursday of every month.
- The **Coagulation Clinic** is held on the second and fourth Thursday of every month.

Please call 808-983-8551 for more information or to schedule an appointment.

SUPPORT GROUPS:

Support groups are also available for parents and teens. Please call 808-983-8248.

Hemophilia and Thrombosis Treatment Center of Hawai'i at Kapi'olani Medical Center (in the Pediatric Ambulatory Unit)
1319 Punahou Street, 2nd Floor
Honolulu, HI 96826

Bleeding Disorders: HEMOPHILIA AND THROMBOSIS TREATMENT CENTER OF HAWAI'I

CREATING A HEALTHIER HAWAI'I

If you or anyone you know has a bleeding disorder then the Hemophilia and Thrombosis Treatment Center of Hawai'i at Kapi'olani Medical Center can help.

In order to provide you with comprehensive care, Kapi'olani Medical Center for Women & Children has a team of dedicated professionals that understand what you and your 'ohana are going through. Our specialists strive to not only meet, but exceed the needs of our pediatric population, and do what we can to improve the quality of life for those with bleeding disorders. We help our patients acquire independence, decrease the frequency of occurrence and prevent other health related problems.

OUR SERVICES INCLUDE:

- Family-centered comprehensive annual visits
- Physician consultations
- Physical therapy and mobility assessments
- Orthopedic evaluations and treatment
- Advocacy and education to schools, medical centers, medical providers and other hospital emergency departments
- Neighbor island outreach
- Psychosocial assessments and community referrals
- Educational, vocational and financial support
- Emotional counseling and support groups for parents and teens
- Referrals and collaboration with identified subspecialists (including genetics counselors and behavioral health specialists)
- 340B pharmacy provider
- Research (studies and blood collection)

The Hemophilia and Thrombosis Center of Hawai'i strives to improve the quality of life for those with bleeding disorders.

OUR TEAM:

- Pediatric Hematologists
- Pediatric Nurse Practitioners
- Pediatric Registered Nurses
- Social Workers
- Physical Therapists
- Pediatric Orthopedic Surgeon
- Geneticist/Genetic Counselor

The Hemophilia and Thrombosis Treatment Center of Hawai'i at Kapi'olani Medical Center serves children and young adults under the age of 22. It is located in the Pediatric Ambulatory Unit on the second floor of Kapi'olani. The Center is nationally accredited and receives federal funding.

We work with many different health plans; however, recommend verification with your insurance provider that all the necessary referrals and authorizations have been obtained prior to your visit. Maintaining annual visits with the Center's team is an important factor in maintaining one's health and reducing overall health care costs.

340B PHARMACY PROVIDER FAQ

The Hemophilia and Thrombosis Treatment Center of Hawai'i at Kapi'olani Medical Center is a nationally accredited and federally funded program—which allows us to provide medication to patients directly. Standard treatment of hemophilia involves replacing the missing clotting factor. Any money received from medication purchases, go toward the Center's work to improve patient services and programs (including support groups, outreach and education).

WHAT IS A 340B FACTOR PROGRAM?

In an effort to help Hemophilia Treatment Centers (HTC) in the U.S. sustain themselves and provide better care for their patients, Congress created what is known as the 340B Program. This program is designed to reduce costs, which in turn helps the HTC build and develop more services and programs to support its patients. The Hemophilia and Thrombosis Treatment Center of Hawai'i at Kapi'olani Medical Center is one of these 340B Programs and strives to bring high quality, comprehensive care to patients and their families.

HOW DOES IT PROVIDE BETTER COMPREHENSIVE CARE FOR YOU?

Any income that the Center makes goes back into programs and services for patients. This includes expanding outreach clinic visits to neighbor islands, providing education to local schools, emergency rooms, hospitals and other community providers as well as maintaining and enhancing the comprehensive team care at the HTC for our patients.

HOW DO I GET STARTED?

Participating in the program is voluntary. Just call 808-983-8551 to sign up. If eligible, you can choose to participate and receive outstanding services by the Kapi'olani team as your 340B pharmacy provider. We will process your child's prescription and the medication will be delivered to your home. Like most homecare companies, there are no additional charges for infusion supplies or shipping.

Contact us for more information and about how to participate in the 340B Program. Call 808-983-8551.
